To our comrades of the Yamit Sinon factory

The Construction Workers Union in Oslo, Norway, with our 3 000 members, fully support your just struggle for better wages, pensions, paid days off due to illness, and a secure working place.

We have learned about your just struggle from our members who have visited you on earlier solidarity-visits. We have huge sympathy with your fight for basic workers rights. And hope for your victory.

The Construction Workers Union in Oslo condemn the ruthless employer's unlawful decision not to negotiate. We also condemn the exploitation of the Palestinian people under Israeli occupation.

You have our support in your struggle until victory!
